@ashrothstein

All toilet paper options found in this guide are made from bamboo and free of plastic, inks, dyes, bleach, fragrances, and chemicals.

Many of these companies are also nearly 100% plastic-free (including packing materials) and zero-waste.

At the bottom of this guide, there is a side-by-side comparison of each company's offerings.

CABOO WIPES

Ingredients: Aqua, glycerin, Geogard Ultra (Gluconolactone & Sodium Benzoate), Sodium Citrate, Citric Acid, Aloe Barbadenis Leaf Juice, Tocopherol (Vitamin E)

Note: I searched hard for low-toxic toilet flushable toilet wipes, and they're hard to come by. While there are still a couple weird ingredients in these, Caboo Wipes is the least toxic option I've come across.

BIDET

A bidet is a great low-toxic option that takes the place of toilet paper. There are a bunch of affordable bidets available on Amazon. I linked one with good reviews here. If using a bidet, you may want to filter your water since tap water can be toxic/carcinogenic. More on that in my [“Clean Water” product guide](#).

SIDE-BY-SIDE COMPARISON

I included this because each company has very similar offerings. I chose the largest volume available for each company, as that’s their cheapest option, but there are also smaller bundles available for purchase. As for the most cost-effective options, Who Gives A Crap and Caboo are the cheapest in price while offering the most sheets per roll.

COMPANY NAME	# OF ROLLS	SHEETS PER ROLL	PLY	PRICE PER ORDER	PRICE PER ROLL	PRICE PER ORDER - SUBSCRIPTION	PRICE PER ROLL - SUBSCRIPTION
Who Gives A Crap	48	370	3	\$68	\$1.42	\$58	\$1.21
Seek Bamboo	48	300	3	\$79.99	\$1.67	\$67.99	\$1.42
Reel Paper	48	300	3	\$82.99	\$1.73	\$69.99	\$1.46
Repurpose	24	300	3	\$39.99	\$1.67	N/A	N/A
Caboo	24	400	2	\$34.99	\$1.46	\$29.74	\$1.24

NOTE: The above prices do not factor in my discount code. If you use my discount code at checkout (if applicable), you will get a discount on top of the listed price.
